Subject: Contact info for Oxford and USGS- Arkwood Sampling
Date: 02/09/2012 12:14 PM

Hi Jim and Tony,

I have attached your contact information below for each of you. Tony, I will be sending you a Fedex package today which will include EPA tag labels and custody seals. I will also try to call you today or tomorrow to talk to you about EPA lab requirements in more detail.

In addition, EPA and ADEQ have both reviewed the USGS QAPP. EPA has signed off on the USGS QAPP and ADEQ had a couple of really minor comments which I just answered, so I expect them to sign it today.

Jim, ADEQ did have two comments that they sent me about the Oxford QAPP even though I made it clear that it was only sent as a reference for the USGS QAPP. I have attached them below.

Regarding the QAPP submitted by Oxford Environmental and Safety, Inc.:

1. General Comment: ADEQ requests that water quality parameters are collected each time samples are collected.
2. General Comment: An updated map would facilitate easier location of the site for the participants.

If either of you have any questions, please call me or send me an e-mail.

Thanks.

James E. Fleeer
